

WHY BECOME A FOAM WING OWNER/PILOT?

Excitement – A change from the oval track mentality Hone flying skills, practice all maneuvers, rolls inverted flying etc. without fear of totaling a plane – **This wing is indestructible** – Fly combat and limbo events – All wings will be set up exactly the same – Savings based on volume purchases – The wing takes up minimal space making it an excellent plane to travel with.

Positive testimony based on experience to the price and value of Hobby King electronics/batteries and motor from Ron Stahl and other very qualified RCMB members.

**ALL THIS FOR A READY TO FLY PRICE OF +/- \$95 ASSUMING 15 RCMB MEMBERS
BECOME wing OWNERS.**

PROGRAM DETAILS

- Leo Gallagher will collect checks based on the completed order from below during the November club meeting.
- Leo will enter one order for the wings and one order with Hobby King during the last week in November.
- All items will be bulk shipped to Leo and then disseminated to members.
- Weather permitting and Troy Lawicki willing, a date will be set for those wishing to take advantage of Troy Lawicki expertise in assembling and trimming the wings. Location will be the RCMB club house; depending on deliveries timing will be a weekend date more than likely in January.
- Freight **is** included in the wing pricing.
- Freight is **not** included in the Hobby King pricing below. Depending on volume, **I estimate** freight will add .85 cents to \$1.00 **per item**.
- 1 to 5 wings \$59.45 ea. - 15 wings \$51.00 ea. – 18+ wings \$49.50
- If less than 15 members sign up, there will be no advantage to me entering bulk orders. Members can use this info on their own.
- View the many wing videos by dialing up Crashtesthobby.com The wing is called “ASSASSIN”
