

Welcome to the Radio Control Modelers of Baltimore (“RCMB”)! RCMB was founded in 1957 and incorporated in 1961 by a group of people with a common interest in radio control aircraft. The purpose of our organization is to promote friendship among modelers and develop a better understanding of the operation of radio-controlled model aircraft; pledging ourselves to always operate our models in a safe manner.

Student pilots can fly one (1) time with an instructor without an AMA membership. You can fly two (2) additional flying days without an RCMB club membership but only with an AMA membership. Below are the required items to exercise your flight privileges at our facility:

1. Academy of Model Aeronautics (“AMA”) membership
2. RCMB membership
3. Federal Aviation Administration (“FAA”) registration
4. Instructor Sign Off (if a Student Pilot or new member)
