

**Radio Control Modelers of Baltimore** (RCMB) was formed in 1957 by a group of people with a common interest in radio controlled model aircraft. The main objective of RCMB is to generate fun and friendship among its members while learning and developing the hobby of flying radio controlled model airplanes. RCMB welcomes all to visit with us at our flying site in Parkton, Maryland. Visit [www.RCMB.org](http://www.RCMB.org) for more information.
